

2021 Success & Milestones

BlocPower Year-In-Review

In a year full of ups and downs, we were very proud of what we accomplished in 2021. We had a number of funding and financing wins (*not least a successful Series A round!*), announced and advanced several key partnerships with cities, utilities, nonprofits and beyond to drive growth, and managed to get recognized by numerous prestigious organizations along the way. We couldn't have done it without the support from you along the way, so please accept our heartfelt **thank you**. Together in 2022, we will drive even further toward our goal of making all American cities and buildings greener, healthier and smarter.

Growth & Financial Highlights

- 1800%+ 2021 Revenue Growth
